

PIMCO US Dollar Short Maturity UCITS ETF GBP (Hedged)

ETF CLASS ACCUMULATION SHARES

Fund Description

The PIMCO US Dollar Short Maturity UCITS ETF aims to generate income, while preserving and growing capital. The Fund will invest primarily in a portfolio of USD-denominated fixed income instruments. Portfolio duration may vary between 0-1 years.

Potential Investor Benefits

The Fund is designed for investors who seek potential for greater income and total return over traditional money market funds, and lower volatility than traditional short-term funds. It aims to achieve this by investing primarily in USD-denominated investment grade bonds.

Potential Fund Advantage

- Potential yield premium and total return over traditional cash investments as can hold longer maturity bonds and a broad universe of investment-grade securities
- Access to PIMCO's portfolio management skill set, including credit analysis, interest rate forecasting as well as PIMCO's "top-down, bottom-up" investment process.
- Transparent: ETF holdings are published daily

Risk and Reward profile

Counterparty Risk: Other financial institutions provide services such as safekeeping of assets or as a counterparty to financial contracts such as derivatives. The fund is exposed to the risk of bankruptcy, or other type of default of transaction counterparties. **Credit and Default Risk:** A decline in the financial health of an issuer of a fixed income security can lead to an inability or unwillingness to repay a loan or meet a contractual obligation. This could cause the value of its bonds to fall or become worthless. Funds with high exposures to non-investment grade securities have a higher exposure to this risk. **Derivatives and Counterparty Risk:** The use of certain derivatives could result in the fund having a greater or more volatile exposure to the underlying assets and an increased exposure to counterparty risk. This may expose the fund to larger gains or losses associated with market movements or in relation to a trade counterparty being unable to meet its obligations. **Fixed Income Risk:** There is a risk that the institution which issued the securities will fail, which would result in a loss of income to the fund. Fixed income values are likely to fall if interest rates rise. **Risk of Using Derivatives:** In order to reach its investment objective, the fund may use swaps, including futures and forwards. Such derivatives may result in gains or losses that are greater than the original amount invested. **Interest Rate Risk:** Changes in interest rates will usually result in the values of bond and other debt instruments moving in the opposite direction (e.g. a rise in interest rates likely leads to fall in bond prices). **Mortgage Related and Other Asset Backed Securities Risks:** Mortgage or asset backed securities are subject to similar risks as other fixed income securities, and may also be subject to prepayment risk and higher levels of credit and liquidity risk.

The benchmark is the ICE BofAML 3-Month Treasury Bill Index GBP Hedged
All periods longer than one year are annualised. SI is the performance since inception.

ABOUT THE BENCHMARK

The ICE BofAML US 3-Month Treasury Bill Index GBP Hedged is comprised of a single issue purchased at the beginning of the month and held for a full month. At the end of the month that issue is sold and rolled into a newly selected issue. The issue selected at each month-end rebalancing is the outstanding Treasury Bill that matures closest to, but not beyond, three months from the rebalancing date. To qualify for selection, an issue must have settled on or before the month-end rebalancing date. While the index will often hold the Treasury Bill issued at the most recent 3-month auction, it is also possible for a seasoned 6-month Bill to be selected. It is not possible to invest directly in an unmanaged index.

Unless otherwise stated in the prospectus or in the relevant key investor information document/ key information document, the Fund is not managed against a particular benchmark or index, and any reference to a particular benchmark or index in this factsheet is made solely for risk or performance comparison purposes. Marketing Communication

This is a marketing communication. This is not a contractually binding document and its issuance is not mandated under any law or regulation of the European Union or the United Kingdom. This marketing communication does not include sufficient detail to enable the recipient to make an informed investment decision. Please refer to the Prospectus of the UCITS and to the KIID before making any final investment decisions.

[†] Differences in the Fund's performance versus the index and related attribution information with respect to particular categories of securities or individual positions may be attributable, in part, to differences in the pricing methodologies used by the Fund and the index.

Except for performance, statistics and breakdowns shown are for the fund and are not specific to the share class. [Ⓢ]PIMCO calculates a Fund's Estimated Yield to Maturity by averaging the yield to maturity of each security held in the Fund on a market weighted basis. PIMCO sources each security's yield to maturity from PIMCO's Portfolio Analytics database. When not available in PIMCO's Portfolio Analytics database, PIMCO sources the security's yield to maturity from Bloomberg. When not available in either database, PIMCO will assign a yield to maturity for that security from a PIMCO matrix based on prior data. The source data used in such circumstances is a static metric and PIMCO makes no representation as to the accuracy of the data for the purposes of calculating the Estimated Yield to Maturity. The Estimated Yield to Maturity is provided for illustrative purposes only and should not be relied upon as a primary basis for an investment decision and should not be interpreted as a guarantee or prediction of future performance of the Fund or the likely returns of any investment. [Ⓐ]Where permitted by the investment guidelines stated in the portfolios offering documents, "other" may include exposure to, convertibles, preferred, common stock, equity-related securities, and Yankee bonds. [Ⓝ]Net Other Short Duration Instruments includes securities and other instruments (except instruments tied to emerging markets by country of risk) with an effective duration less than one year and rated investment grade or higher or, if unrated, determined by PIMCO to be of comparable quality, commingled liquidity funds, uninvested cash, interest receivables, net unsettled trades, broker money, short duration derivatives and derivatives offsets. With respect to certain categories of short duration securities, the Adviser reserves the discretion to require a minimum credit rating higher than investment grade for inclusion in this category. Derivatives Offsets includes offsets associated with investments in futures, swaps and other derivatives. Such offsets may be taken at the notional value of the derivative position.

Important information: Your capital is at risk. You may not get back the amount you invested. Past performance is not a guarantee or reliable indicator of future results and no guarantee is being made that similar returns will be achieved in the future. The information in this document is not intended as investment advice or as a recommendation to invest in any particular asset class, security or strategy. The information provided is for illustrative purposes only, and it should not be relied upon as investment advice or as a recommendation to buy or sell securities. Investors should seek independent professional advice prior to investing. Any investment in an ETF should be made on the basis of the relevant Prospectus and Key Investor Information Documents, including consideration of the investment objective, risks, charges and expenses. Further information on the ETFs, their Prospectus, Key Investor Information Documents and Supplements are available at www.pimco.co.uk or from your financial adviser or broker. For actively managed ETFs, further information on the use of benchmarks or indices is set out in the Prospectus and relevant Supplement.
